

Environmental Management Strategy; Expert/Officials/Stakeholder Workshop; 17 July 2002

Purpose

A one-day workshop will be held to allow academics, managers and stakeholder representatives with expertise and interest in the management of adverse effects of fishing on the aquatic environment to review the draft MFish Environmental Management Strategy. The role of the review is to identify how the document can be improved prior to being distributed for consultation.

Logistics

The workshop is scheduled for 8.45 am – 5.00 pm, Wednesday 17 July, in the Cameron Room at ASB Bank House, Wellington. A professional facilitator, Glen Lauder, from the company *Common Ground*, will facilitate the workshop. The draft Environmental Management Strategy will be provided to workshop participants on the basis that it is a preliminary draft, does not necessarily represent MFish views, and is not for wider distribution. MFish will cover the cost of the venue, facilitator and, where appropriate, invited experts. Stakeholder representatives will be expected to cover their own costs.

Participants

The following people will be invited to participate in the workshop

Name	Notes	Name	Notes
Facilitator	(1)	Stakeholder reps	(7)
Glen Lauder		Kirsty Woods	TOKM
Officials	(8)	Nici Gibbs	SeaFIC
