
NISW Regional Recreational Forum – Membership

(Agreed at Meeting of 20 October 2005)

Membership Vision

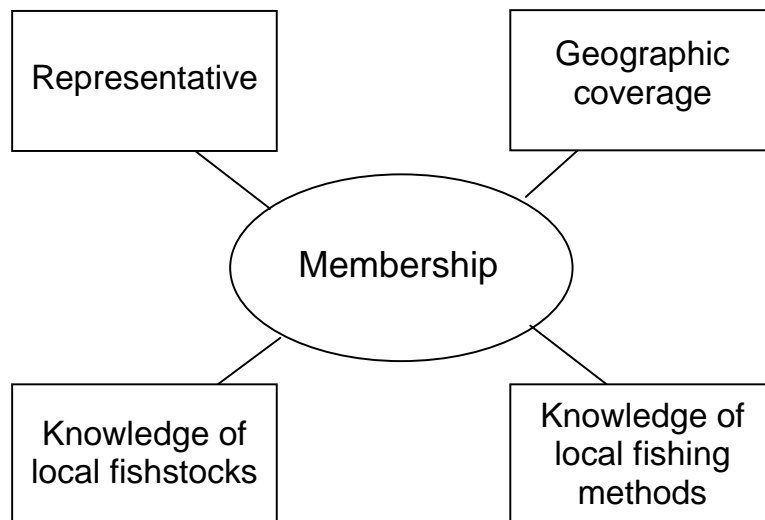

The long-term vision for the forums is that the members, as a group, encompass knowledge of:

- the region's whole coastline,
- the region's key fishstocks, and
- the region's key recreational fishing methods,

and that all recreational fishing organisations in the region are represented on, or have links to members on, the forum.
