

Good morning

The NZ Rock Lobster Industry Council (NZ RLIC) is the umbrella organisation for the nine regional commercial stake holder organisations comprised of rock lobster quota share and ACE owners, processors and exporters. The NZ RLIC routinely coordinates industry submissions to the MFish consultation process by way of an ongoing dialogue with regional representatives.

Can you please note and record that the NZ Rock Lobster Industry Council endorses the SOI Submission made by the NZ Seafood Industry Council (SeaFIC).

The SeaFIC submission encompasses all of the issues that the rock lobster industry has considered during the consultation period and the NZ RLIC has been closely involved with SeaFIC personnel and other commercial stakeholder groups during its compilation.

Yours sincerely
